

**St Anne's Catholic Primary School
Funding for PE and School Sport
Action Plan**

An Audit of Our Needs in PE

In April 2013, the Government announced new funding of £150 million for PE and sport. From this, a typical school will receive about £8920 annually in the academic years 2013/14 and 2014/15 and 2015/16. Schools are free to determine how best to use this money. Ofsted suggest using the money in areas of PE that include:

- Improving the quality of PE and sport provision.
- Improving the breadth of PE and sport provision.
- Increase participation in PE and sport.
- Develop healthy lifestyles and reach the performance levels they are capable of.

On hearing about the funding, the headteacher and PE coordinator met to discuss which areas the money might be used in to enhance PE at our school. This led on to a meeting with all staff where we discussed where our strengths and areas for developing lay.

Strengths

We felt that our strengths generally lie in:

- The teaching of invasion games.
- The many after school clubs, regularly ran by teachers as well as out of school agencies.
- The way PE is planned and assessed using the 'PEDPAS' core unit sheets.
- The many sports that we compete in against other schools: in cluster competitions as well as in competitions that lead on to county and national finals.

Areas for Developing

We felt that our areas for development lie in:

- The quality of the teaching of dance.
- The quality of the teaching of gymnastics.
- The opportunity for all to compete and achieve in dance and gymnastics.

Following this audit, the PE coordinator has put together an action plan, in order to meet the needs of our school and use the funding with as much impact on the children's learning and fitness as possible.
